2nd Annual Conference of Balco Medical Centre Chhattisgarh Cancer Conclave and 5th Edition of eCancer Conference

21st & 22nd September 2024

Theme : Choosing Wisely 2024 – Common Sense
Oncology for outcomes that matter

Dear Esteemed Guests, Distinguished Colleagues, and Partners in Healthcare,

With great pleasure and honour, I extend a warm welcome to each one of you to the **Second Edition of the Annual BMC Chhattisgarh Cancer Conclave**. This year, under the theme "Choosing Wisely 2024 – Common Sense Oncology for outcomes that matter," we aim to address the pressing issues of cancer care accessibility and quality, particularly in our part of the world. This will also coincide with the fifth year of choosing wisely meeting to be held in India in collaboration with ecancer, Tata Memorial Centre, Mumbai and National Cancer Grid.

The conclave is scheduled for 21st and 22nd September 2024 in the serene and picturesque premises of The Mayfair Lake Resort, Naya Raipur, Chhattisgarh. In conjunction with the conference, a live surgical demonstration on Pancreatic and Gastric cancer will take place on 20th September at BALCO Medical Centre, Naya Raipur (along-with Staplers Anastomosis and HJ – PJ workshop)

Following the success of our inaugural Conclave, we have once again curated a comprehensive agenda focusing on discussing priorities that address the challenges posed by the increasing number of patients in resource-constrained settings, while maintaining the highest ethical standards. The scientific program is richly designed, covering crucial areas such as Solid cancers (Head & Neck, Breast, Gynaecological, and Gastric), Haemtological cancers including Bone Marrow Transplantation, and Paediatric Cancer. Additionally, we are introducing the Nursing Conclave for the first time along with a wide array of workshops to address the crucial knowledge gaps and training needs in cancer care.

Apart from this there will be small sessions on critical aspects of delivery and communication of cancer care

- 1) **Medical Writing workshop**
- 2) **Communication skills**
- 3) **Women for Oncology**
- 4) **Patient advocacy with key cancer NGOs**

I encourage physicians, nurses, clinicians, researchers as well as patients, survivors and advocates in any aspect of oncology to attend the Conclave. It is only through a diverse exchange of knowledge that we can offer the best care to our patients both now and in the future.

My heartfelt gratitude to all the esteemed professionals nationally and internationally who so generously have agreed to share their time, expertise, and knowledge with us. Looking forward to your enthusiastic participation. Thank you

Warm Regards

Dr. Bhawna Sirohi

Medical Director,
