## International Speaker:

### Dr. Pasi A. Jänne

Senior Vice President & Chair, Department of  
Medical Oncology Memorial Sloan Kettering Cancer Center  
New York, USA

Dr. Pasi A. Jänne is the Senior Vice President for Translational Medicine and the Scientific Director of the Belfer Center for Applied Cancer Science at Dana-Farber Cancer Institute. He is also a Professor of Medicine at Harvard Medical School.

Dr. Jänne received his medical degree and doctorate from the University of Pennsylvania in 1996. He completed his residency training in internal medicine at Brigham and Women's Hospital and a fellowship in hematology and oncology at Dana-Farber Cancer Institute.

His primary research interests focus on studying the therapeutic relevance of oncogenic alterations in lung cancer. Dr. Jänne was a key contributor to the discovery of epidermal growth factor receptor (EGFR) mutations and has been instrumental in developing therapeutic strategies for patients with EGFR-mutant lung cancer.

Dr. Jänne was recently awarded the American Cancer Society 2024 Medal of Honor, which is the American Cancer Society's most prestigious award, recognizing distinguished individuals or organizations for their significant contributions to cancer research and treatment.
