CHAPTER 2 ADVANCING METASTATIC **BREAST CANCER TREATMENT**

Program Description

Dear Colleagues,

On behalf of the organising committee of “The Indian Society of Medical and Pediatric Oncology (ISMPO)” we are pleased to invite you to participate in a series of academic sessions in oncology titled MANTHAN.

MANTHAN- 2023 in its first year will have series of academic sessions covering advances in oncology in different tumor types including chapters focusing on Lung Ca, Breast Ca, GI Ca, Uro-oncology and General oncology.

We will have renowned national and international faculty who will discuss on advances in management of these cancers as well as topics like how artificial intelligence is helping the field of oncology. Program agenda includes interactive sessions like panel discussion, international expert sessions, debates and case presentations for each of the meeting.

The meeting will be held in a hybrid format with live centers connected across the country as well as relayed on the virtual platform.

We successfully conducted our first Chapter on Lung Cancer in January. The second chapter of MANTHAN will focus on Breast cancer.

Chapter 2: Advancing Metastatic Breast Cancer treatment landscape. This meeting is scheduled on 25th March 2023; 06:00 pm onwards

We look forward to your active participation to make this program a great success!

Links for registering for the event and submission of cases are mentioned below.

Submit your case on : ismpo.manthan@gmail.com
