Navigating Controversies: Unravelling Dilemmas in

GEJ & Colorectal Cancer

Dear Esteemed Colleagues,

The Oncology Group Pune is thrilled to announce our upcoming **2nd Annual Conference**, set to take place from **31st August & 1st September 2024**, as a physical event at Hotel Hyatt Regency, Pune.

As healthcare professionals, we grapple with questions that often lack easy answers. From the complexities of diagnosis and staging to the intricacies of treatment selection and patient management, every decision we make profoundly impacts the lives of those affected by GEJ and Colorectal Cancer. With the theme of **"Navigating Controversies: Unraveling Dilemmas in GEJ & Colorectal Cancer,"** our conference mirrors the intricate challenges encountered in our daily oncology practices.

Our conference program will feature lectures, discussions and workshops aimed at addressing the challenging scenarios, controversies and issues surrounding GEJ & colorectal cancer. We are excited to present sessions such as **'How I manage my complications'** to complement our understanding and management of complex surgical procedures. We have also curated a special session for consultants featuring **"The Dream MDT"**, where difficult cases will be thoroughly discussed.

Throughout this conference, we will confront these dilemmas head-on, engaging in rigorous discourse, sharing invaluable insights and challenging our preconceptions.

We urge each of you to bring forth your dilemmas and embrace this opportunity to collaborate and actively participate in our discussions. By harnessing our collective expertise and experiences, we aim to find solutions to confidently tackle the uncertain situations encountered in our clinical practice.

We extend a warm welcome to the vibrant city of Pune for this productive, enlightening and inspiring conference experience. May our time together be marked by meaningful exchanges and lasting connections that will shape the future of Oncology in India.

Warm Regards,

Dr. Sujai Hegde
