URO-ONCOLOGY UPDATE

Theme: Innovation & Equity in Genito-Urinary Malignancies

 **23rd-24th November, 2024**

 **AIIMS, New Delhi**

All India Institute of Medical Sciences (AIIMS), New Delhi Invites to the Uro-Oncology Update 2024

Dear Esteemed Colleagues,

It brings us immense pleasure and enthusiasm to extend a heartfelt welcome to each of you to our forthcoming conference titled "**Innovation and Equity in Genito-Urinary Malignancies**," scheduled to take place on November 2024, 23rd & 24th at AIIMS, New Delhi. This significant gathering is organized by the Research & Education Society of Medical Oncology.

We are thrilled to convene today to delve into groundbreaking advancements and pivotal discussions at the nexus of innovation and equity within the realm of genitourinary malignancies.

Throughout the duration of this conference, we aim to deeply explore the latest innovations in treatment modalities, diagnostic techniques, and therapeutic approaches for genitourinary cancers. Concurrently, we are committed to addressing the crucial imperative of equity in accessing these innovations, ensuring that every individual has equitable opportunities for optimal care and outcomes.

In collaboration with our esteemed international and national faculties, we are dedicated to tailoring scientific deliberations to provide actionable insights that can be implemented in clinical practice as early as Monday morning.

Let us unite in our fight against genitourinary malignancies and work together to ensure that this conference is both meaningful and successful.

Warm regards,

Organizing Team

URO-ONCOLOGY UPDATE

Theme: Innovation & Equity in Genito-Urinary Malignancies

 **23rd-24th November, 2024**

 **AIIMS, New Delhi**

INVITED INTERNATIONAL SPEAKER

Dr. Neeraj Agarwal

MD, FASCO

Professor of Medicine and
Presidential Endowed Chair of Cancer Research,
Huntsman Cancer Institute,
University of Utah, USA

Dr. Neeraj Agarwal is a Professor of Medicine, and a Presidential Endowed Chair of Cancer Research at the Huntsman Cancer Institute (HCI), University of Utah. He also directs the Genitourinary Oncology (GU) Program, and the Center of Investigational Therapeutics (CIT) at the HCI.

Dr. Agarwal is an internationally recognized Physician-Scientist in the field of Genitourinary Cancers. He is the overall study chair of multiple Phase I/II and Phase III trials, and serves as a steering committee member of numerous other trials. He has received the SWOG Young Investigator Award, The William D. Odell Young Investigator Award, and The National Cancer Institute Cancer Clinical Investigator Team Leadership Award. After receiving his medical training at the All India Institute of Medical Sciences in New Delhi, he has completed a residency in internal medicine and a fellowship in Geriatric Medicine at the University of Iowa, followed by a Haematology-Oncology fellowship at HCI.

Dr. Agarwal has authored more than 450 peer-reviewed articles and book chapters. He serves as a panel member for The NCCN guideline committees for Bladder and Kidney cancers. He is an advisor to the Oncology Drug Advisory Committee and The United States Food and Drug Administration and leads early Therapeutics in The SWOG Genitourinary Cancers committee. He holds numerous scientific communications leadership roles, including Chief Editor of The ASCO Daily News, specialty editor for ASCO's cancer.net site, and Editorial board member of several journals, including the Journal of Clinical Oncology and European Urology. He also serves as a member of the ASCO Genitourinary Cancers Advisory Panel. Recently, Dr. Agarwal was appointed as the Senior Director for Clinical Research, directly reporting to the Cancer Center Director at the Huntsman Cancer Institute (HCI).

URO-ONCOLOGY UPDATE

Theme: Innovation & Equity in Genito-Urinary Malignancies

 **23rd-24th November, 2024**

 **AIIMS, New Delhi**

INVITED INTERNATIONAL SPEAKER

Dr. Hans Hammers

MD, PhD

Eugene P. Frenkel, M.D. Scholar in Clinical Medicine
Co-Leader, Kidney Cancer Program
Co-Leader, Experimental Therapeutics
Associate Professor, Internal Medicine
Division of Hematology and Oncology
UT Southwestern

Dr. Hans Hammers, M.D., Ph.D., is a Professor in the Department of Internal Medicine at UT Southwestern Medical Center, and a member of the Division of Hematology and Oncology. He is the inaugural Eugene P. Frenkel, M.D. Scholar in Clinical Medicine.

Originally from Germany, Dr. Hammers received his medical and doctoral degrees from the Medical University of Luebeck. He completed his internal medicine residency training at Johns Hopkins Bayview Medical Center in Baltimore and received advanced training through a fellowship program in medical oncology at the Sidney Kimmel Comprehensive Cancer Center at Johns Hopkins University.

At Johns Hopkins, Dr. Hammers led the kidney cancer research efforts and played a major role in the development of immunotherapy with immune checkpoint inhibitors in kidney cancer. His work in immunotherapy has been nationally recognized, and he has been the principal investigator on several industry- and investigator-sponsored trials.

Certified by the American Board of Internal Medicine in medical oncology, Dr. Hammers joined the UT Southwestern faculty in 2016.

Dr. Hammers is the Co-Leader of Clinical Research and Immunotherapy for the Kidney Cancer Research Program and is using his research efforts to develop novel immunotherapies for kidney cancer.

Dr. Hammers is a member of the American Society of Clinical Oncology, the American Association for Cancer Research, and the Society for Immunotherapy of Cancer.

URO-ONCOLOGY UPDATE

Theme: Innovation & Equity in Genito-Urinary Malignancies

23rd-24th November, 2024

AIIMS, New Delhi

HIGHLIGHTS OF THE MEETING

- Cutting-edge Innovations:** Explore the latest advancements in treatment modalities, diagnostic techniques, and therapeutic approaches for genitourinary malignancies, uncovering groundbreaking solutions poised to redefine patient care.
- Equity in Access:** Address the critical need for equity in accessing innovative treatments and technologies, ensuring that all individuals, regardless of socio-economic status or geographic location, have equal opportunities for optimal outcomes.
- Multidisciplinary Perspectives:** Engage with a diverse range of experts from various fields including oncology, urology, radiology, and pathology, fostering rich interdisciplinary discussions aimed at enhancing holistic patient care.
- Patient-Centric Care:** Emphasize the importance of patient-centered approaches in the delivery of care for genitourinary malignancies, with a focus on empowering patients and promoting shared decision-making throughout their treatment journey.
- Implementable Insights:** Gain actionable insights from international and national faculty members, with a focus on translating scientific knowledge into practical strategies that can be readily applied in clinical practice.
- Collaborative Networking:** Foster meaningful collaborations and partnerships among attendees, facilitating the exchange of ideas, experiences, and best practices in the fight against genitourinary malignancies, with the ultimate goal of improving patient outcomes and advancing the field.
