9th YEAR IN REVIEW BREAST CANCER

The year that was...2023

01

India's most comprehensive update on breast cancer

02

10+ International conferences reviewed

03

Five International Speakers

04

More than 100 abstracts to be discussed

05

Exclusive 45 mins panel discussion

9th YEAR IN REVIEW
**BREAST
CANCER**

The year that was...2023

“

Highlights of the Meeting

- » Selected publications shortlisted from 30+ journals
- » Selected abstracts from major cancer conferences
- » State of the art keynote talks
- » Meet National experts
- » Extended rapid review session

”

“

Session Classification

- » Loco-Regional therapies in breast cancer
- » ER+ve Breast Cancer
- » HER2+ve Breast Cancer
- » Triple Negative Breast Cancer
- » Translational Science & Supportive Care
- » Keynote Presentations and Panel Discussions

9th YEAR IN REVIEW BREAST CANCER

The year that was...2023

International Speaker

Dr. Hope Rugo, USA

Clinical Professor, Department of Medicine (Hematology/Oncology); and Director, Breast Oncology Clinical Trials Program, UCSF San Francisco, CA

Dr. Hope Rugo is a medical oncologist and hematologist specializing in breast cancer research and treatment. A Clinical Professor of Medicine, Dr. Rugo joined the Breast Care Center in 1999 after a decade of experience at UCSF in malignant hematology and bone marrow transplantation for a variety of diseases, including breast cancer. She entered the field of breast cancer in order to incorporate novel therapies based on an understanding of the biology of cancer with excellent quality of care into the treatment of women with breast cancer.

Dr. Rugo is the Director of the Breast Oncology Clinical Trials Program, and is the principal investigator of multiple clinical trials focusing on combining novel targeted therapeutics with standard treatment to improve the treatment of both early and late stage breast cancer. In addition, Dr. Rugo is working on studies to evaluate cognitive function in women receiving chemotherapy for breast cancer, as well as novel ways to reduce toxicity from therapy. Dr. Rugo has established collaborations with a number of other large academic medical centers for the purpose of expanding the novel therapies that are available for our patients, including herbal agents that appear to have an antitumor effect in the laboratory. She is an active member of the national cooperative group, CALGB, and is a founding member of the Breast Cancer Research Consortium, as well as serving as an investigator in the UCSF Breast SPORE (the Bay Area Specialized Program of Research Excellence in Breast Cancer).

9th YEAR IN REVIEW BREAST CANCER

The year that was...2023

International Speaker

Dr. Rugo teaches medical students and physicians, and regularly lectures locally, nationally and internationally on subjects relating to the treatment of breast cancer. At UCSF, Dr. Rugo runs the Breast Forum, an open bimonthly evening educational session for breast cancer patients, families and friends from throughout the bay area.

Dr. Rugo graduated from the University of Pennsylvania School of Medicine in 1983. She completed a residency in internal medicine and primary care followed by a fellowship in hematology and oncology at the University of California San Francisco. She was a post-doctoral fellow in immunology participating in laboratory research at Stanford University from 1988-1990.

In 1990, Dr. Rugo joined the faculty at UCSF in the Division of Hematology and Oncology. Dr. Rugo has been recognized for her excellence in both patient care and in teaching of both medical students and training physicians. She has received several awards including the Bank of America Gianini Foundation Award and a UCSF Clinical Cancer Center Investigator Research Program intramural award. In 2006, she was honored for her work in Breast Cancer Research by the Friends of the Breast Care Center.

9th YEAR IN REVIEW BREAST CANCER

The year that was...2023

International Speaker

Dr. Giuseppe Curigliano

Associate Professor, Dept. of Medical Oncology,
University of Milan & Head,
Division of Early Drug Development,
European Institute of Oncology, IRCCS, Italy

Dr. Giuseppe Curigliano, MD PhD, is Associate Professor of Medical Oncology at the University of Milano and the Head of the Division of Early Drug Development at the European Institute of Oncology, IRCCS, Italy. He is a clinician and researcher specialising in early drug development for patients with solid tumours with a special commitment to breast cancer. He has been a member of the Italian National Health Council since 2018 and, in 2019, he served as Chair of the Scientific Committee of The Lega Nazionale Lotta ai Tumori. He has served as a Member of the ESMO Breast Cancer Faculty since 2001 and he is currently the Faculty Coordinator. He has also served on the Scientific Committee for the St Gallen Conference since 2011, and was the Scientific Co-Chair in St Gallen 2017 and 2019.

He has been an Editorial Board Member for Annals of Oncology since 2014, and serves as Co-Editor in Chief of The Breast, Co-Editor in Chief of Cancer Treatment Reviews, Associate Editor of the European Journal of Cancer, Editor of the Journal of Clinical Oncology. He also serves on the European School of Oncology (ESO) faculty committee.

Dr. Curigliano serves ESMO as the Chair of the Guidelines Committee and is a Council Member. He is also the Chair of the Nomination Committee. Since 2016 he has served in the ESMO Women for Oncology Committee, the ESMO Membership Committee, the ESMO Press and Media Affairs Committee, the ESMO Global Policy Committee and the ESMO Translational Research Working Group.

9th YEAR IN REVIEW BREAST CANCER

The year that was...2023

International Speaker

Dr. Stephen K. L. Chia

Professor of Medicine
Head, Division of Medical Oncology,
UBC Department of Medicine,
BC Cancer - Vancouver

Dr. Chia is a Full Professor in the Division of Medical Oncology, Head of the Division of Medical Oncology, UBC and a staff medical oncologist with the BC Cancer, Vancouver Cancer Centre. He has a full-time clinical practice focusing on breast cancer and in new drug development. He is the Chair of the BC Cancer Breast Tumour Group and Head of the Department of Clinical Research. He is also the Co-Chair of the Breast Disease Site for Canadian Cancer Trials Group (CCTG).

Dr. Chia is recognized both nationally and internationally for his research work on breast cancer. His focus is on clinical trials and translational research. He has published over 180 peer-reviewed papers. His publications appear in international peer-reviewed journals including high-impact journals such as the New England Journal of Medicine, Journal of Clinical Oncology, Lancet, Cell, JAMA Oncology, and Nature and Nature Medicine. Dr. Chia has been a Subject Editor for British Journal of Cancer and The Oncologist, and is the current section author for UpToDate™ in the Prognostic/Predictive Markers Section. He holds numerous peer reviewed grants.

9th YEAR IN REVIEW BREAST CANCER

The year that was...2023

International Speaker

Dr. Maggie Cheang

Team Leader of Genomic Analysis - Clinical Trials,
The Institute of Cancer Research,
London

Dr. Maggie Cheang grew up in Vancouver, Canada and obtained her PhD in Pathology and Laboratory Medicine under the supervision of Professor Torsten Nielsen from the University of British Columbia in Canada. She then received a prestigious Canadian Cancer Society/Terry Fox Foundation Postdoctoral Fellowship to train with Professor Charles Perou, a pioneer in identifying subtypes of breast cancer, at the Lineberger Comprehensive Cancer Center at the University of North Carolina, US. Her work has been instrumental in the identification and validation of multiple clinically relevant biomarkers, one of which has been implemented into clinical practice guidelines. Maggie's primary research focus is to identify biomarkers that would be clinically relevant by fully deciphering the extensive amount of data generated from the current "omics" approaches within clinical trials. As the ICR-CTSU Scientific Lead for genomics biomarkers analysis methodology development she also has biostatistics and bioinformatics oversight of the biomarker enriched trials and translational projects. Her research achievements have been internationally recognised by numerous awards, grants and memberships. She was a Merit Award recipient at the American Society of Clinical Oncology Meeting in 2011 and received a Clinical Science Scholar Scholarship at the CTSC-AACR San Antonio Breast Cancer Symposium in 2011. Dr Cheang was also a recipient of a Career Development Award for Junior Faculty funded by ReThink Breast Cancer Canada in 2011-12; two Novartis Oncology Young Canadian

Investigator Awards (2011, 2008); and a National Cancer Institute of Canada Traveling Award for senior graduate students (2007-08). She consults on several trial management and translational research committees for phase II and III trials. As a mark of her standing in the field, she currently serves as an Associate Editor of BMC Cancer, Editorial board of npj Breast Cancer and Chair of the National Cancer Research Institute (NCRI) CM-Path Clinical Trials Pathology Advisory Group. Dr Cheang co-invented the 50 genes-based classifiers for the breast cancer intrinsic subtypes. This assay, commonly known as PAM50, is commercially known as Prosign® and is integrated into multiple international clinical practice guidelines including the German Association of Gynecological Oncology (AGO), St. Gallen International Breast Cancer, European Society for Medical Oncology (ESMO), the UK National Institute for Health and Care Excellence Guidelines, National Comprehensive Cancer Network (NCCN) and American Society of Clinical Oncology (ASCO) Clinical Practice Guidelines for clinical subtype classification in breast cancer.
