# Anaesthesia Review Course 2022

**8<sup>th</sup> - 10<sup>th</sup> April, 2022**

Dear students and friends,

We are happy to announce the dates of the **19<sup>th</sup> ARC**- the annual preparatory course for students appearing for their degree exams in anaesthesiology. Due to the unpredictability of regulations related to COVID 19, we will conduct an online course this year as well. ARC needs no introduction and has been immensely popular among exam going students all over the country for revision of the core concepts in anaesthesiology. With the focus solidly on preparation for degree examinations in Anaesthesiology, we have detailed case discussions by experienced faculty from premier teaching institutes. Our USP has been the comprehensive workshops on topics discussed at the exam 'tables'. Unfortunately, the very popular interactive small group format for workshops will not be possible on the online platform.

While the previous ARCs were open only to the exam going students, the online platform allows a larger participation. We are pleased to extend our registrations to all anaesthesiology students and practitioners.

MMC credit point have been applied for. Please note that the MMC mandates attendance of 6 hours on each day of the CME for eligibility for credit points.
