Annual Meeting of Supportive Care in Cancer

Dear Colleagues,

ASCC (Association of Supportive Care in Cancer) is an affiliate organization of MASCC, dedicated to improve the supportive care in India. The inception of the organization was declared September 2018 during Best of MASCC by Dr. Sudeep Gupta in the presence of Dr. Matti Aapro (past president MASCC). This organization is completely focused on supportive care required during cancer directed therapies. Other important aspects would be to support good quality research in the same field.

On September **23rd - 24th - 25th**, we are organizing the **Best of MASCC 2022, Conference**. This **MASCC/ASCC** annual meeting will be held virtually. The exciting program planned for this conference will have presentations, workshops, and discussions on treatments and techniques for minimising the symptoms of cancers and side effects of cancer directed and related therapy. The conference also includes a diverse array of presentations on the psychological, social, and economic dimensions of cancer diagnosis and treatment.

The meeting will feature plenary sessions and parallel sessions for doctors and para-medics associated with supportive care in cancer.

Organizing Secretaries

Dr. Vikas Ostwal
