06:30 PM - 09:15 PM

Dear Colleague,

The field of Rheumatology is dynamic with constantly evolving diagnosis and treatment approaches. Regular updates are a must to stay ahead of the curve.

The 1st virtual e-RHECON in March 2021 garnered an overwhelming response with your support and participation. With the aim of discussing and ideating on the latest developments in the clinical arena of Rheumatology, we invite you to join the 2nd Virtual Summit organized by **Arthritis & Rheumatic Diseases Foundation (ARDF)** in collaboration with Cipla- **"Mid-Year e-RHECON 2021"**, a unique blend of knowledge and experience sharing to be held on 1st & 2nd October 2021 from 6:30 PM to 9:15 PM.

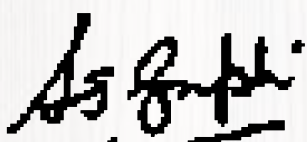

This interesting program brings together international and national stalwarts along with young rheumatologists to provide a panoramic view of contemporaneous management practices and latest updates encompassing the spectrum of adult & paediatric rheumatic diseases.

Your participation at **"Mid-Year e-RHECON 2021"** is bound to make the program interesting, informative and interactive.

We look forward to your active contribution.

With kind regards,

Yours sincerely,

Dr. S. J. Gupta
Chair ARDF

Dr. Rohini Handa
Secretary ARDF

1st & 2nd October 2021

06:30 PM - 09:15 PM

DAY 1: Friday, 1st October 2021

International Faculty

Prof. Philip J. Mease

MD

Clinical Professor,

University of Washington School of Medicine,

Director of Rheumatology Research,

Swedish Medical Center, Seattle, WA, USA

TIME : 06.35 PM - 07.00 PM

TOPIC : JAK-STAT Inhibition: Prospects in Ankylosing Spondylitis

Prof. Philip J. Mease, MD is a Clinical Professor at the University of Washington School of Medicine and Director of Rheumatology Research at the Swedish Medical Center in Seattle, WA, USA. His clinical practice is based at Seattle Rheumatology Associates. Dr Mease earned his undergraduate and medical degrees at Stanford University (Stanford, CA, USA). He then completed his residency in internal medicine and a fellowship in rheumatology at the University of Washington School of Medicine.

Dr Mease's research interests include psoriatic arthritis (PsA) and spondyloarthritis (SpA), rheumatoid arthritis (RA), osteoarthritis (OA), fibromyalgia (FM), and osteoporosis. His research focuses on disease state, outcome measure development, and determining the efficacy and safety of emerging therapies for these conditions. His seminal 2000 Lancet paper established the efficacy of anti-tumour necrosis factor (TNF) therapy in PsA. He has authored over 500 journal articles and many hundreds of abstracts, book chapters, and edited textbooks on PsA and axial SpA (AxSpA). He is a reviewer for multiple journals including New England Journal of Medicine, Lancet, Arthritis & Rheumatology, Arthritis Care & Research, Annals of the Rheumatic Diseases, The Journal of Rheumatology, and Seminars in Arthritis and Rheumatism.

He serves in an educational and advisory role for the US Food and Drug Administration (FDA) and is a member of the steering committee of the arthritis section of the International Consortium for Health Outcomes Measurement (ICHOM). He conducts disease state research in registries such as the Consortium of Rheumatology Researchers of North America (CORRONA), for which he is Director of the PsA-SpA arm. Dr Mease is a Master of the American College of Rheumatology (ACR) and has received its Medical Communicator of the Year Award for his teaching there and in the community. He is a Co-Chair of the ACR abstract review committee section on SpA and PsA and serves on the Voting Committee for the ACR-NPF (National Psoriasis Foundation) Psoriatic Arthritis treatment guidelines task force. He is also Co-Chair of the PsA task force of the NPF, which in 2019 awarded him a lifetime achievement award for his work in advancing the field of PsA.
