

EBM 2022

XX Annual Conference

on Evidence Based Medicine

Pre - Conference Workshop

Date: 18th February, 2022 Friday | Time: 12:00 pm to 05:00 pm

AIIM - Advanced Imaging and Intervention in Musculoskeletal Oncology

As part of the Musculoskeletal oncology track of EBM 2022, the Department of Radiodiagnosis along with Bone and soft tissue Disease Management group, Tata Memorial Hospital, are organizing a half-day pre-conference workshop on Musculoskeletal Onco-imaging and Interventions.

Delegates will be given the opportunity to view and comment on the diagnosis and intervention of fully worked-up MSK oncology cases at the beginning of the workshop which will be rationalized with inputs from our esteemed faculty at the end of the workshop. Target audience includes diagnostic and interventional radiologists budding to excel in musculoskeletal oncology. Live hands-on bone biopsy on a mannequin and interventions like ablation (radiofrequency/microwave/cryoablation) on the porcine liver will be demonstrated. Many international and national stalwart speakers will share their expertise, experiences and discuss recent advances in MSK Onco-Imaging and Interventions.

Program Director
Dr. Suyash Kulkarni
