10.4.22

Dear Colleagues & Residents,

It is a proud privilege to present the third issue of newsletter of Varanasi Hematology Group (VHG). Prof. H.P. Pati and Prof. Tejindar Singh are two stalwarts of Hematology in India and we are fortunate to have them as authors for the two articles. Dr. Neema Tiwari has provided a bird's eye view regarding Leukaemia. Her two tables on AML will be useful especially for the postgraduates.

Dr. Ankur Singh, newsletter editor needs appreciation for all the pains he took to bring out a flawless issue. Mr. Santosh Dwivedi, publisher has left no stone unturned to give the newsletter a fabulous look.

Varanasi Hematology Group is looking for doctors who are passionate about hematology, are willing to work in a team format, have small egos but think big and are ready to work for a cause & not for applause. Are you one of them.....? If so, you are welcome to join us.

With best wishes

Yours Sincerely

**(Dr. Vijai Tilak)**

Professor & Head  
&

President, Varanasi
