# 2<sup>nd</sup> ISMPO Preceptorship Programme

## Eklavya-Let's Learn Together

In Collaboration with Deenanath Mangeshkar Hospital, Pune

## About ISMPO

Indian Society of Medical and Paediatric Oncology is the apex body of Medical and Paediatric Oncologists in India. It was established in 1973 as Indian Society of Cancer Chemotherapist (ISCC) and was given its present name in 1983.

Among the aims of the Society, the promotion of the exchange of knowledge, the establishment of educational and research opportunities and the dissemination of guidelines and standards of professional conduct for members play a key role.

It currently has more than 600 active members and has a very vibrant academic culture.

**ISMPO has collaborated with many national and international societies like European Society for Medical Oncology (ESMO), American Society of Clinical Oncology (ASCO), and Korean Society for Medical Oncology (KSMO), International Association for the study of Lung Cancer (IASLC World Lung), American Society of Hematology (ASH), and San Antonio Breast Cancer Symposium (SABCS).**

Indian Journal of Medical and Paediatric Oncology (IJMPO) is the official journal of ISMPO and it is a bi-monthly peer-reviewed international journal published by Thieme Medical Publishers.

The journal is available in both print and online versions. We receive more than 500 manuscripts each year and are currently in the 43<sup>rd</sup> year of publishing.
