# Lung Cancer

## Leaps and Bounds

22<sup>nd</sup> - 23<sup>rd</sup> October 2021 | 06:00 pm - 09:15 pm

**Dear Colleagues,**

Anti-PD1/PD-L1 and driver mutation directed therapies have been a revolution in the field of advanced lung cancer by improving the prognosis. This has given hope to a large population of patients who are potential long-term survivors.

Nevertheless, with the overlapping approvals of IO treatment and new targeted therapies for oncogenic altered mutation it has become difficult to navigate which treatment will benefit whom. Optimal treatment selection using validated biomarkers are key to improving the patient outcomes.

Keeping in mind this practice changing evidence in lung cancer and fast progressing research that are providing new answers, we at Onconxt invite you for **"Lung Cancer: Leaps and Bounds"**. This meeting will be held on **22<sup>nd</sup> & 23<sup>rd</sup> October 2021 on virtual platform.**

We aim to review the landscape of impactful and complex evidence in Lung Cancer through focused talks and interactive panel discussions.

We request you to share your opinions, dilemmas and if possible clinical scenarios which you want us to get discussed during this meeting. You can write to us on **onconxtedu@gmail.com**

We have various sponsorship opportunities for pharma partners and we request you to get in touch with our event manager and discuss the same.

With Best Regards,

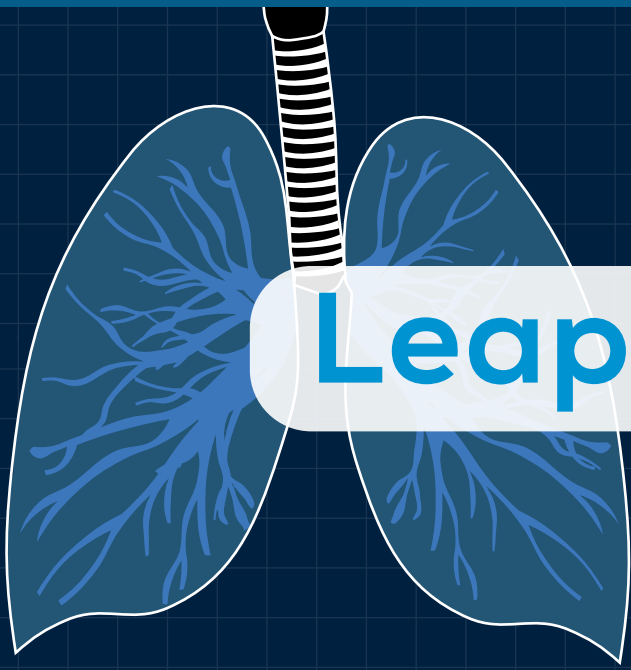

**Dr. Nilesh Lokeshwar**

**Dr. Tejinder Singh**

**Dr. Adwaita Gore**

# Lung Cancer

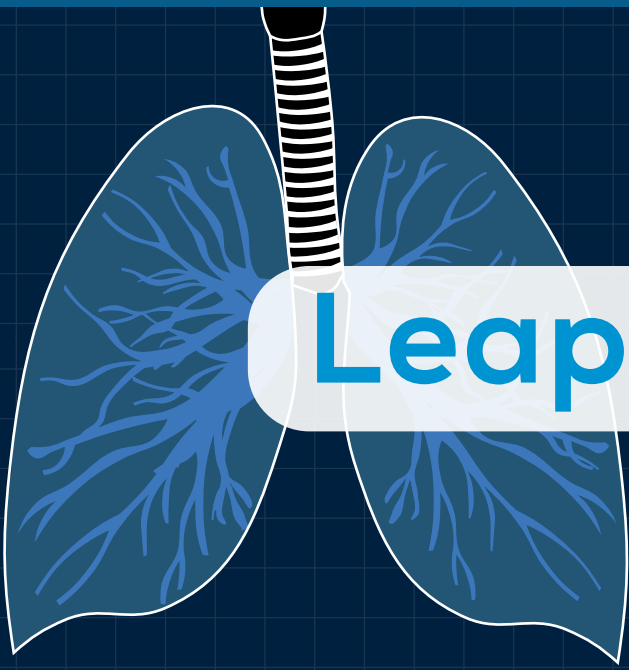

## Leaps and Bounds

22<sup>nd</sup> October 2021 | 06:00 pm - 09:15 pm

### Scientific Program

06:00 – 06:30 pm	Pre-conference Industry Session 1
Session 1	Shooting for the moon in EGFRm NSCLC
07:00 – 07:10 pm	Pushing the TKI boundaries: Adjuvant strategies in EGFR mutated NSCLC
07:10 – 07.20 pm	Maximize the survival distance : The javelin throw with 1L treatment in EGFRm+ advanced NSCLC
07:20 – 07:30 pm	Shining through the leaves: Outcomes in uncommon EGFR+ mutations NSCLC
07:30 – 08:00 pm	Cased Based Discussion focusing on EGFRm+ adjuvant NSCLC and uncommon mutation in advanced NSCLC

# Lung Cancer

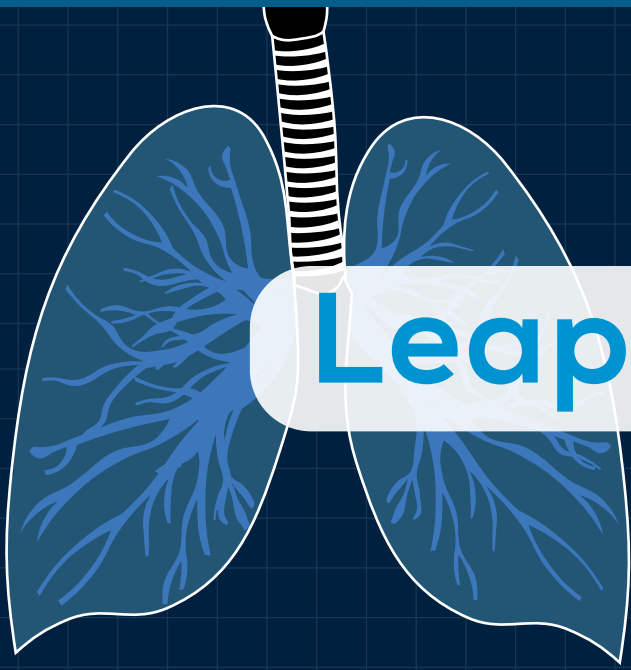

## Leaps and Bounds

22<sup>nd</sup> October 2021 | 06:00 pm - 09:15 pm

### Scientific Program

Session 2	Oncogenic drivers of change in advanced NSCLC
08:00 – 08:10 pm	We need to t-ALK+ : Considerations for choosing the first line ally in advanced NSCLC
08:10 – 08:20 pm	Reaching the sanctuary site: Options for ALK+ NSCLC patients with brain metastases
08:20 – 08:30 pm	Proving the METtle : Coping with mutations
08:30 – 09:00 pm	Driver mutations in advanced NSCLC : Case Based Discussion focusing on ALK+ and MET+ mutations
09:00 – 09:30 pm	Pre-conference Industry Session 2

# Lung Cancer

## Leaps and Bounds

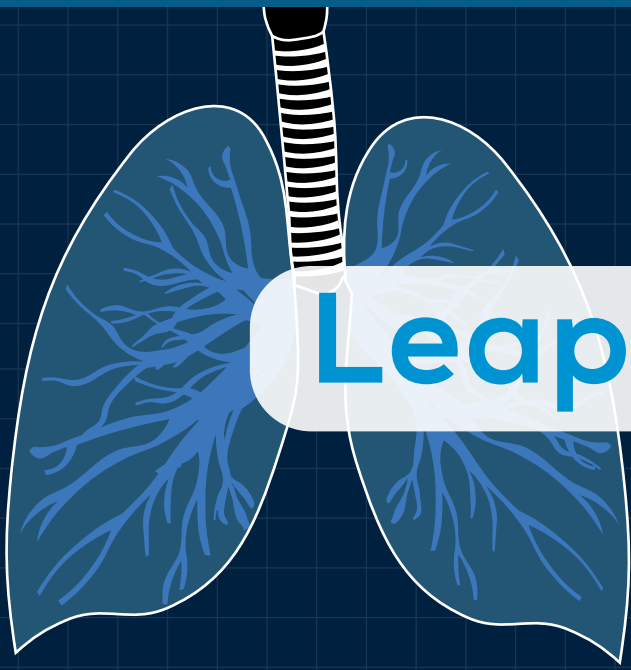

23<sup>rd</sup> October 2021 | 06:00 pm - 09:15 pm

### Scientific Program

06:00 – 06:30 pm	Pre-conference Industry Session 3
Session 3	Bridging the gap in lung cancer
07:00 – 07:10 pm	Adding a feather to the bio of io : Winning the game in ES NSCLC
07:10 – 07.20 pm	Team work makes dreamwork : IO as a Important Component of Multimodal Therapy for Stage III unresectable NSCLC
07:20 – 07:30 pm	Potential Biomarkers for Predicting Immunotherapy Response : Finding the Needle in the Haystack
07:30 – 08:00 pm	Case Based Discussion assessing role of biomarkers for predicting immunotherapy response

# Lung Cancer

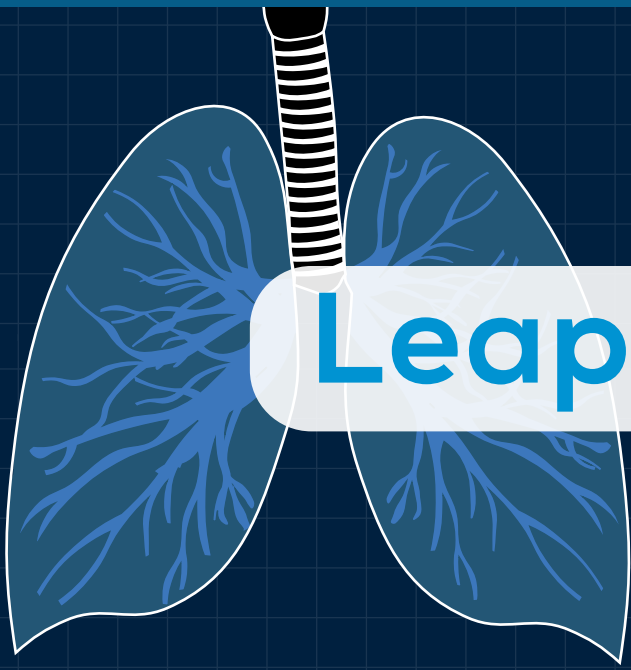

## Leaps and Bounds

23<sup>rd</sup> October 2021 | 06:00 pm - 09:15 pm

### Scientific Program

Session 4	Choosing an IO to bet on for the gladiatorial battle in NSCLC colosseum
08:00 – 08:15 pm	Hit it hard : optimal tactics for PDL1+ve advanced NSCLC
08:15 – 08:30 pm	Connecting the dots : Immunotherapy in EGFRm+ NSCLC
08:30 – 08:45 pm	Doubling the fight : IO-IO on song in advanced NSCLC
08:45 – 09:15 pm	Case Based Discussion focusing on role of IO in EGFR+ NSCLC and patient selection for 1L IO+IO combination in advanced NSCLC
09:15 – 09:45 pm	Pre-conference Industry Session 4

# Lung Cancer

## Leaps and Bounds

22<sup>nd</sup> - 23<sup>rd</sup> October 2021 | 06:00 pm - 09:15 pm
