LYMPHOMA 2021

23-25 SEPTEMBER 2021 | 07:00 - 08:45 PM

Dear Colleagues,

The field of lymphomas has shown several advances in recent times. The progress made in its diagnostic classification using novel genomics and the use of immunotherapies has really changed the way we treat lymphomas today!

On behalf of the organising committee we are pleased to invite you for "**The Lymphoma Update 2021**" to be held on **23rd, 24th & 25th September 2021** on a virtual platform.

During this upcoming lymphoma meeting, several national experts will discuss the most recent therapeutic options in a variety of lymphomas & how best to offer a personalized approach in treating these patients as upfront therapy and in those with relapsed refractory lymphomas.

We do look forward to your support in popularising this meeting amongst your colleagues and students interested in the management of lymphoma.

Looking forward to your active participation.

With Best Regards,

Program Director

Dr. Punit Jain
Navi Mumbai

Organising Secretary

Dr. Tejinder Singh
