PANACEA

Pfizer ACTREC National Workshop on DATA ANALYSIS & CLINICAL RESEARCH

APRIL - JUNE 2022

WELCOME NOTE

Dear Colleagues,

On behalf of the organizing committee, we would like to announce that ACTREC, Tata Memorial Centre is inviting you to join and register for the upcoming workshop on data analysis and clinical research **"PANACEA workshop 2022"**.

The workshop will be held on a virtual platform and will span across 3 months, **April – June 2022**, with sessions being **conveniently conducted only on Saturdays** on aspects pertaining to **clinical research and biostatistics**.

This workshop is primarily targeting young oncology students and early career oncologists across the country and provide a unique opportunity to learn about clinical research, biostatistics & data management in a simplistic way from experts in the field. The course comprises a series of lectures on clinical research methods along with practical demonstrations by statisticians on data management and analysis.

We will share the joining link with you for the meeting as well as the final agenda in the subsequent mails.

The registration for this workshop is completely free and keeping in mind the COVID pandemic, the entire workshop is being held on an online platform.

It's our earnest hope to create an exclusive opportunity for the fledgling oncologists to learn the basic tenets of clinical research, data analysis and interpretation. Before we sign off, we would like to thank Pfizer for their partnership to conduct the workshop.

Regards,

Dr. Sudeep Gupta

Director, ACTREC
Professor of Medical Oncology,
Tata Memorial Centre,
Mumbai

Dr. Jayant Goda

Professor & Clinician Scientist,
Radiation Oncology, ACTREC

Dr. Atanu Bhattacharee

Asst. Profssor, Biostatistics,
ACTREC, Mumbai
