PRESENTS

# 09<sup>th</sup> - 11<sup>th</sup> September 2022

Dear Colleagues,

OrthoOncoCon is back after the COVID hiatus. We have a lot to catch up on, academically and socially.

We, at Tata Memorial Centre urge you to block your dates from Friday 09<sup>th</sup> September to Sunday 11<sup>th</sup> September. We promise an academic extravaganza with proposed CME accreditation.

The program has something to offer for everyone. An orthopaedic resident, early career consultants and yes, for masters too.

Friday is dedicated to surgical complications, foreseen and unforeseen. Together, we help solve or at least reduce the restless, sleepless nights we face with unanticipated challenges.

On Saturday, we present an up to date standard of care for common benign tumors. That is followed by a critical appraisal of surgical planning and execution of surgeries for malignant tumors; panels, debates, discussions and our trademark ORP sessions

Our Sunday **'Sarcoma of the year'** for 2022 is a master class on Ewing's Sarcoma and Undifferentiated round cell sarcomas. There is a plethora of new entities, but what does it all mean for patients and clinicians? Has it changed practice? Attend it to know the answers!

And if this doesn't entice you enough, visit Mumbai for some monsoon bonhomie along the seaside, with chai, charcha, pakoda and a lot else.... monsoon showers, sunset by the sea, puddles, and potholes, they all await you.

We are looking forward to host you at **Choksi Auditorium, Tata Memorial Hospital Mumbai.**
