

Dr. Prashant Sharma

Academic qualifications: MD Pathology (MAMC, New Delhi); DNB; DM Hematopathology (AIIMS, New Delhi).

Present affiliation: Professor, Department of Hematology, PGIMER, Chandigarh.

2. Achievements and Publications.

My research interest involves the disorders of red cells and erythropoiesis, and also have a keen interest in hematology automation and molecular genetic assays.

Member, Cellular Analysis and Flow Cytometry Committee of the International Society for Laboratory Hematology, 2015-18.

Associate Editor of the IJHBT since 2013.

Springer-IJHBT Best Reviewer Award, 2017

ISLH Berend Houwen / Young Investigator Awards in 2022, 2021, 2017 and 2016.

Professor-in-Charge of the Examination Cell, PGIMER, Chandigarh

184 publications indexed on PubMed [H-index 19, i10 index 43]

Principal investigator in four research projects totalling over 1.5 crores in extra-mural funds.

3. Contributions towards society.

Towards the Indian society in general: As a public servant in a government institute, I have strived to provide state-of-the-art yet efficient, cost-effective and patient friendly services to the public. My research and educational pursuits have also been directed towards breaking down barriers in healthcare delivery.

Towards the ISHBT: Serving as the journal editor, regular participant and speaker at nearly all the annual conferences over the last decade, active in organizing the North-West Chapter ISHBT activities.

4. What will be your contribution to the ISHBT if you become an elected EC member?

If elected, I shall strive to strengthen the educational activities of the Society and foster an inclusive environment to enable increased participation of otherwise dormant members in society activities. I would also work to improve the networking and mentoring opportunities for the younger members.

Regards

Dr.Prashant Sharma
